Real-World Case Study Pala Casinos, California

PURADIGM has been working to create solutions and applications for various industry that reduce and eradicate mold, virus and bacteria through commercial buildings and facilities.

Pala Casino ran a side by side study to compare two ice machines. One of the machines ran for 5 months without the Puradigm Technology and One of the Machines ran with the Puradigm Technology.

CONCLUSION

Puradigms Air & Surface Purification System known as the Puradigm COOL reduced the PM Cleaning by 75%.
